

## Electrolux Line 5000 Tumble Dryers with Compass Control

### Change your point of view.

The new Line 5000 Electrolux Professional dryers offer advanced performance innovation and significant energy savings. Now with easy to use Compass Control, it's perfect for hotels, motels, hospitals, nursing homes, gyms, salons, schools, and other facilities. You'll appreciate the "green" engineering, easy operation, and years of low maintenance.

### Features and benefits:

- Axial airflow and tight construction gives low energy consumption
- High productivity - 2 full loads per hour
- Large door opening for easy loading and unloading
- Easy and ergonomic access to the lint screen
- Excellent water evaporation efficiency per kWh
- With Compass Pro program control:
  - Large and clear display with control knob for easy program selection
  - Easy access with user-friendly interface
  - Language selection
  - Drying program packages optimized for Economy, Care and Time
  - Service program for adjustment of parameters
  - USB connection
- Reversing drum (standard) minimizes tangling and wrinkling. Improves dryer efficiency and makes flatwork finishing easier.

### Residual Moisture Control:

The Residual Moisture Control (RMC) option is available in all Electrolux single pocket dryers. RMC prevents damage to garments caused by overdrying and reduces lint and wrinkles by automatically stopping the dryer when the exact pre-set moisture level is reached. The amount of residual moisture in the fabric is important for proper finishing. If the load is to be further processed by an ironer, RMC will shut the dryer off while there is still sufficient moisture for the ironer to work effectively. By not overdrying, you'll benefit from longer linen life and significant labor and energy savings.

35, 67, and 83 lb. capacities.

Available in stainless (optional) or wave front panel. Other options include: Stainless steel drum, RMC, Heat recovery system: Heat Recovery Pipes (HRP), fresh air intake, exhaust on top, and more. Contact the Laundrylux Sales Dept. to learn more.

### The future of professional laundry is here.

Electrolux is dedicated to providing you with the very best precision-engineered washers, dryers, and flatwork ironers. Production units are certified in accordance with ISO 9001 (Quality) and ISO 14001 (Environmental Management) standards, and products are CE labeled. Take control of your laundry operations with Electrolux Professional Laundry.

\* Consumed air when machine is optimally installed. Filling factor 1:22 when machine is warm.

Refer installation and servicing to qualified, licensed personnel. Always read installation and operating manuals and consult local codes before installation. Protect machines with properly rated, inverse-time, common-trip, industrial-type circuit breakers ONLY. Warranty void if not properly installed. Advise when placing order if dryers are for installation at altitudes in excess of 1000 feet above sea level, as this may require a gas-orifice change. Contact Laundrylux for more information and availability of machines for electric services not listed. Specifications subject to change without notice. Laundrylux assumes no responsibility for errors or omissions in this information.
