

Electrolux T4420S 45 lb. Stack Dryer

Energy saving and fast drying – with Reversing standard!

High performance combined with big energy savings.

Built to last, Electrolux dryers are precision-engineered for efficiency, ease of use, and superior drying results. Perfect for hotels, motels, hospitals, nursing homes, gyms, salons, schools, and other facilities. You'll appreciate the "green" engineering, easy operation, and years of low maintenance.

Features and benefits:

- Increase your productivity per square foot with Electrolux stack dryers.
- Optimal combination of gas consumption (Btu/hr) and airflow (CFM) provides the fastest drying with lowest energy consumption.
- 31% more available heat power and 69% more available hot air than with a 30 lb. stack dryer.
- Self-cleaning lint screen and large lint compartment for easy maintenance.
- Reversing drum (standard) minimizes tangling and wrinkling. Improves dryer efficiency and makes flatwork finishing easier.

Autostop for energy savings:

- With Autostop, you can set the drying cycle to stop when the load is fully dry, substantially lowering your gas consumption.

Designed with you in mind:

- Fits through a standard 36" door
- Extra large doors with 27" openings
- Large, easy to clean lint drawers
- Superior performance and reliability
- Quiet operation. Designed to keep noise level below 70 dB (A)
- 120 volt, single phase for easy installation

*Model T4420S 45lb. stack dryer.
Available for coin and on-premises
laundry operations.*

Coin, card ready, or OPL.

The future of professional laundry is here.

Electrolux is dedicated to providing you with the very best precision-engineered washers, dryers, and flatwork ironers. Production units are certified in accordance with ISO 9001 (Quality) and ISO 14001 (Environmental Management) standards, and products are CE-labeled. Take control of your laundry operations with Electrolux Professional Laundry.

Note: T4420S 45 lb. stack dryer is not available in 208 Volt, 1-Phase. Use 120 volt model for 208 volt applications.

Refer installation and servicing to qualified, licensed personnel. Always read installation and operating manuals and consult local codes before installation. Protect machines with properly rated, inverse-time, common-trip, industrial-type circuit breakers ONLY. Warranty void if not properly installed. Advise when placing order if dryers are for installation at altitudes in excess of 1000 feet above sea level, as this may require a gas-orifice change. Contact Laundrylux for more information and availability of machines for electric services not listed. Specifications subject to change without notice. Laundrylux assumes no responsibility for errors or omissions in this information.

ELECTROLUX DRYER CONTROL

Our Selecta II control provides perfect results every time.

Selecta II OPL

- Precise control of temperature, program, time, reversing and cool-down selection.
- Displays selected program, remaining drying time, cool-down time and actual temperature.
- Comprehensive diagnostics and service functions.
